

### About the company

1. 5+ years old company managed by First generation entrepreneurs.
2. A growing brand with huge growth potential with dedicated Dealers.
3. Their R&D is famous for launching new Cast Products with intricate designs.
4. Customer across India

### Modules Deployed

1. Sales and Invoices
2. Inventory control
3. Purchase and Goods Receipts
4. Manufacturing modules with Subcontracting and Jobwork
5. Financial Control module with Payments and Receipts.
6. Taxations, General ledger with Reports

### According to Managing Director of the company, within 3 months:

1. Nearly 80% time saved in tracking of materials and issuance.
2. Improved in Taxes and compliances regulation and last minute rush to file the returns have reduced.
3. We become independent of CA's and started seeing the right details

### Customer Challenges

1. Accurate Finished Goods Costing with Subcontracting operations
2. Tracking of Brass casting materials with scrap items at Vendor Location
3. Order Backlogs created more problems.
4. Wanted to reduce the human usage and move to automation.

### How AcTouch.com, helped to resolve these challenges?

1. Implemented Location based stock tracking and issuance
2. Implemented ABC process (Activity Based costing) with Subcontracting operations
3. Manufacturing process is redefined with a focus on Costing and tracking of by-products.
4. Able to track the materials at Subcontractor locations. This reduced the friction to manage the stocks

AcTouch.com Enterprise Platform provide

1. SaaS / Cloud ERP Solutions
2. Mobile Apps (Dealers Management Solution and Sales Force Apps)
3. Calibration on Cloud Solutions
